

GENERAL: Douglas Lighting Controls, a member of the Panasonic Group, engineers energy efficient, easy to install and use, digital lighting control solutions for commercial buildings, campuses, and sports complexes throughout North America. Douglas systems include relays panels, controllers, occupancy/vacancy sensors, daylight sensors and wall switch stations. Douglas has a dedicated design team that produces system drawings and a technical support group for product questions and onsite system commissioning. With over 50 years in operation, Douglas is recognized for their deep understanding of lighting control systems and ability to provide the right solution for each facility.

What Makes Us Different:

Service:

- Best-in-Class Pre-Sales, Quote, & Design Services
- Exceptional Post-Sales Site & Technical Support
- 1,500 Annual Projects Ranging Small to Large

Reliability

- 100% Project Quality Control
- Industry Best Practices for Design & Testing
- Make use of highest performing components

Integrity

- Over 50 years of proven experience
- Unwavering commitment to successful outcomes
- Backed by a Global Leader - Panasonic

The Panasonic Group: Panasonic Lighting Americas, Inc., a subsidiary of the Panasonic Group, operates Universal Lighting Technologies, Inc. and Douglas Lighting Controls, two market leaders in the industry. Universal Lighting Technologies, based in Nashville, Tennessee, engineers LED solutions for commercial lighting applications as well as LED, linear fluorescent, compact fluorescent, HID, and eHID components. Douglas Lighting Controls, based in Vancouver, British Columbia, develops innovative controls systems and works to engineer end-to-end energy-efficient, easy-to-install digital lighting-control solutions for commercial buildings, campuses and sports complexes throughout North America. Together, Douglas and Universal, provide customers with the most advanced lighting controls and LED components available today.
